

## INTIMATION.

A. S. WATSON &amp; CO., LIMITED

房藥大氏臣屈

## DISINFECTANTS

WATSON'S

CARBO CAMPHYLENE

Is particularly useful for the toilet and for the disinfection of bathtubs, bedrooms, bedrooms, chambers, corridors, &c., as a place of bad smells it leaves a refreshing odor.

## AS A SAFEGUARD

A little sprinkled on the handkerchief or on cotton wool and kept in front of the nose and mouth in bedrooms and infected districts is strongly recommended.

FOR SICKROOMS AND BEDROOMS. A teaspoonful in each Sassaer distributed round the room or evaporated by the aid of a lamp.

FOR SPRINKLING OR SPRAY. A Wine Glassful to a Pint of Water.

CARBOLIC POWDER. For the purification of Houses, OR SPICES, DRAINS, WATER-CLOSETS, &c., and for the disinfection of Sickrooms.

CARBOLIC ACID. For Disinfecting Farpowes. Half an ounce (about one table-spoonful) of this Acid, when well mixed with one quart of water, forms a superior disinfectant and does away with all odors.

Half a pint of the Solution thus formed, when added to any vessel used in the sick-room, will prevent any unpleasant odors, and preserve the contents for Medical inspection. It also purifies drains, water-closets, &c.

A tea-spoonful of CARBOLIC ACID, exposed on a plate or other vessel in a sick-room will purify the air and prevent contagion.

PERMANGANATE DISINFECTANT. Similar to Carbolic, but Cheaper. 50 cents a Quart Bottle. A nice clean Disinfectant for Dressing-rooms and Bath-rooms.

CHLORINATED LIME. THE HONGKONG DISPENSARY.

Hongkong, 7th June, 1894.

DEATH. On the 14th inst., at No. 10, Arbutnot Road, HONGKONG, the beloved wife of H. M. H. 1894.

THE DAILY PRESS. HONGKONG, JUNE 15th, 1894.

THE Siam Government have been wise in pocketing their dignity and surrendering PHRA YOT for punishment. It would have been suicidal on the part of the little kingdom to have provoked a conflict with France, even had she had a stronger case than she had. If the French insisted on the punishment of the accused there was no choice left open to Siam but to yield to force majeure. And, as a matter of fact, PHRA YOT seems to have been guilty of ordinary guile and trickery deserving of some punishment, though perhaps not a particularly severe one. He may have thought that the end justified the means, and he would not doubt further plead that he was goaded into the action he took by what he considered the annoyance and humiliation to which he was subjected; but the fact remains that GOSAVAT and his party were slaughtered. The Bangkok papers to hand contain the beginning of the trial, but the details do not come up to its conclusion. The *accusation*, however, presents a strong case against PHRA YOT which it would be difficult to break down, for there had already been one trial at which all the available evidence had been cited, and it was on that evidence that the *accusation* was mainly founded. GOSAVAT was told off, with a party of Annamite militiamen, to escort PHRA YOT and his Siamese soldiers across the frontier, when getting towards the end of the journey PHRA YOT sends to the nearest Siamese post for soldiers, and at the same time, as is alleged, one of his officers spreading dangerous reports about the country people, whereupon GOSAVAT thought it necessary to place LUANG ANKHAU under restraint. PHRA YOT, who had established his camp at some little distance from GOSAVAT's, having received reinforcements from the Siamese side, went to the house where the French officer was staying to demand the release of LUANG ANKHAU, taking with him a number of armed men. Up to this point there is no material dispute as to the facts of the case; the conflict of evidence begins on the question of who shot first. According to the case for the prosecution, hostilities were commenced by PHRA YOT, while according to the defence it was GOSAVAT who opened fire. The Court have found the accused guilty and have sentenced him to twenty years' penal servitude. That the sentence is not a capital one would seem to indicate that the Court has not looked upon the affair as a case of deliberate murder, and it would, we think, be difficult to arrive at such a conclusion. PHRA YOT may reasonably be held to have been guilty of a breach of good faith, for it was undoubtedly his duty, having made his capitulation, to have gone to the frontier quietly, but when the fight did occur, by whichever side it was

provoked, it seems to have been conducted as fairly as such an affair could be expected to be. On the whole it is difficult not to feel some sympathy with PHRA YOT, for though a war was not supposed to exist between France and Siam, to the Siamese the proceedings of the French must have presented themselves very much in the light of an invasion of their territory, and the placing of LUANG ANKHAU under restraint was evidently an act very much resented by PHRA YOT and one which he happily thought he was justified in opposing. Twenty years' penal servitude seems rather a severe sentence for an offence which might have been considered sufficiently punished by deprivation of official rank and honour.

The steamer *Glenloch*, from Antwerp, London, and Straits, left Singapore for this port on the morning of the 13th inst.

We understand that the French community of Canton have made a handsome present to Dr. Roume, who is going home for a holiday.

M. S. Undensted is expected at Singapore on the 18th inst. She was reported by wire at Aden on the 3rd. It is considered probable, the *Press* says, that she will not touch at Hongkong on account of the plague, but go direct to Aden to join the Admiral's flag at Yokohama.

We are requested to call attention to the alterations made in the date of the meeting of the Sanitary Board, which was fixed for the 15th inst. The meeting will now take place to-morrow, the 16th inst. at 8 p.m. at the City Hall.

Her Excellency, the distinguished German traveller and explorer, has again returned to the East. He is now in Ceylon, where he will make a tour of about three months, and then proceed to India, travelling to Tibet and down through Burma, ultimately visiting Borneo and then New Guinea. He will travel leisurely and expects that his trip will extend over about three years altogether.

As will be seen from Mr. Leigh's letter in another column, that gentleman offers himself as a candidate for election by the Sanitary Board. Mr. Leigh was recently appointed by the Governor to fill Mr. Edie's place on the Board, but he declined, but he will be able to render better service to the Board, if elected, for a full term, an opinion in which the Sanitary Board will doubtless concur. The candidature of Mr. Leigh is a very good one, but it would be difficult to find a better man to fill his place on the Board than Mr. Leigh. We hear that Mr. Turner will now be appointed by the Governor to fill Mr. Edie's seat as town clerk.

We hear that Mr. Cooper, the Director of Public Works, has just returned from a tour of inspection to the colony, in view of the work before him in his department by the plague. Mr. Cooper is about to enter the hands of medical and sanitary officers, and will be received from home, to-day was the date fixed for the happy event. It can hardly be expected that Mr. Cooper's official career in the immediate future will yield him much pleasure, but in his private capacity we are sure the community will join in wishing him much happiness and will regret any interference with the arrangements for the journey, that the exigencies of the service may require.

The steamer *Myrina*, C. de la Havelle, Commandant, the first of the steamers from Hongkong, arrived at Singapore on the 14th inst. making the voyage from the Western Bay in 10 days 17 hours. She experienced strong southerly winds and heavy head seas from the 31st May to the 2nd inst., for the remainder of the voyage, moderate winds and smooth water. She has a full cargo of tea for Europe. The *Myrina* arrived at 8.30 a.m., commenced unloading at 8.45 a.m., and finished at 11 a.m., taking on board 750 tons in two hours 15 mins. This says the *Singapore Press*, is a very smart record for a vessel of her size.

disinfecting the houses should be limited. The authorities there are quite ready to do the disinfecting, but in accordance with the idea of the Chinese, so long as safety is not endangered, sympathy in mind that they do not require to be disinfecting, but only to be disinfecting. Probably 60 cubic feet per man, or even less, would be sufficient.

The disinfecting work is being carried out in the most efficient manner, and the authorities are doing their best to keep the plague from spreading.
